

Wish list for SANE Software

- HMS Tracking
 - Combined optics with target field (long/trans)
 - Angle/Momentum of particles at the target
 - For positrons and electrons
- BigCal
 - Gain Monitoring/Energy Calibration
 - Cluster analysis
 - Cluster energy for each particle
 - Continuous resolution monitoring

Wish list continued

- SANE Detectors
 - Tracking with residual target field
 - Method to discard e^+e^- pair events
 - Lucite + BigCal dE/E particle ID?
 -
