Workdisk

/work/hallc/tensor and /volatile/hallc/tensor have been created.

If the students or collaborators would like access to it, please send an email to:

Hanjie Liu <hanjie@jlab.org>

General rule:

the /work directory is where the analysis scripts are called and saved; /volatile directory is where large files (such as root files) should be saved at. If the used space in the volatile directory is above the reserved space (2 TB). It's possible that the old files will be deleted and there is no backup of volatile directory.
